Between November 2021 and March 2022, Heroshe faced significant public backlash due to multiple issues with our stakeholders. People were hurt in so many ways; some had to find alternatives that worked better for them, while others who understood our challenge stayed with us.

How It Started

Around November 2021, our order volume surged as usual, coinciding with the peak holiday sales season. However, we

Dear Valued Client,

Happy Women's History Month!

During this special month, we celebrate the strength of women all over the world, especially the unbelievable feats they have achieved in the social, political, and economic sectors. To celebrate women, we'd be sharing a few oral health tips for women.

HAPPY WOMEN'S HISTORY MONTH

7 Oral Health Tips For Women

Women could experience issues with their oral health due to several reasons, chief of them hormonal change. Because of this, it is important to take practical steps to maintain your oral health as a woman.

Here are five oral health tips for women you should consider:

Gum Health During Menstrual Cycles

Pay close attention to your gums during and after your menstrual periods. If you notice swelling or discomfort, consult your dentist promptly.

Prioritize Regular Dental Visits

Be proactive about your oral health. Schedule regular dental check-ups and seek professional advice at the first sign of any dental issues.

Pregnancy and Dental Care

If you're pregnant, make sure to visit your dentist at least once during

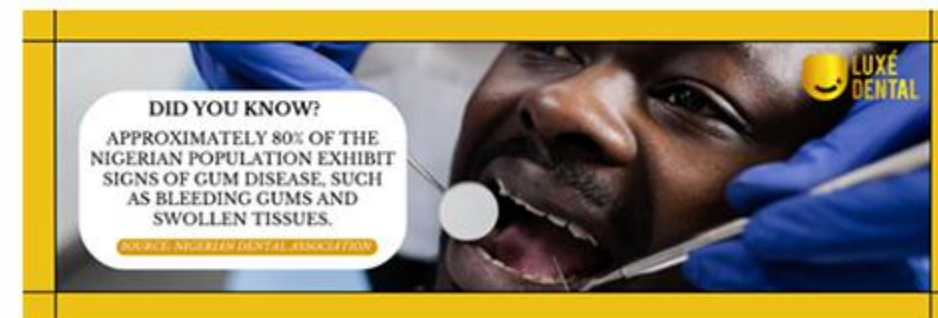

LUXE DENTAL

Newsletter Content

Dear Valued Client,

I trust February treated you well. In today's fast-paced world, convenience matters more than ever. That's why we're excited to introduce Mobile Dentistry—a service that brings high-quality dental care directly to you, wherever you are. Whether you're at home, work, or even on vacation, our team of skilled dentists and hygienists will come to your location, ensuring that your oral health remains a top priority.

What Is Mobile Dentistry?

Mobile Dentistry is a modern approach to dental care that eliminates the need for patients to visit a traditional dental office. Instead, the dentist brings the clinic to you. With this, you enjoy convenient appointments. All you need to do is schedule an appointment at a time that suits your busy schedule. You don't have to worry about the quality of the services, as you will still have access to comprehensive services and personalized care.

Three Key Benefits of Mobile Dentist

Mobile dentistry offers you a range of benefits. We have outlined three important ones below:

Time-Saving Convenience

With mobile dentistry, you can say goodbye to long commutes and waiting room delays. This type of dentistry helps you save valuable time by avoiding traffic and waiting times. We come to you, so you can focus on what matters most

Dear Valued Client,

How has the month treated you?

There are only a few days until the end of the first quarter, so it's a good time to evaluate how well you're doing with your dental goals. One way to keep up with your dental goals is to visit your dentist regularly. In today's newsletter, we'll discuss the importance of regular dental check-ups.

Four Reasons To Visit Your Dentist Regularly

Most people prefer to visit their dentists only when they experience dental issues. However, there are several reasons why keeping up with your dentist is more than just a good habit. We'd discuss four of them below:

1. Spot dental issues early

First things first, early detection is key. Just like you'd fix a small leak before it floods your kitchen, catching dental issues early can save you from more extensive (and expensive) treatments later. Regular visits allow your dentist to spot those sneaky cavities and gum diseases before they become a real pain.

2. A Clean Mouth is a Happy Mouth

We all love that fresh, just-cleaned feeling after a dental visit, right? Well, it's not just about the sparkle. Professional cleanings remove the buildup of plaque and tartar that your trusty toothbrush might miss. This isn't just cosmetic; it's about preventing gum disease and keeping your mouth in healthy shape.

3. Knowledge is Power

Dentists are like the wise sages of oral health. They can provide personalized advice and tips tailored to your unique smile. Plus, they're great at debunking those internet myths about dental care. So, consider your regular visits as educational sessions that empower you to take control of your oral health.

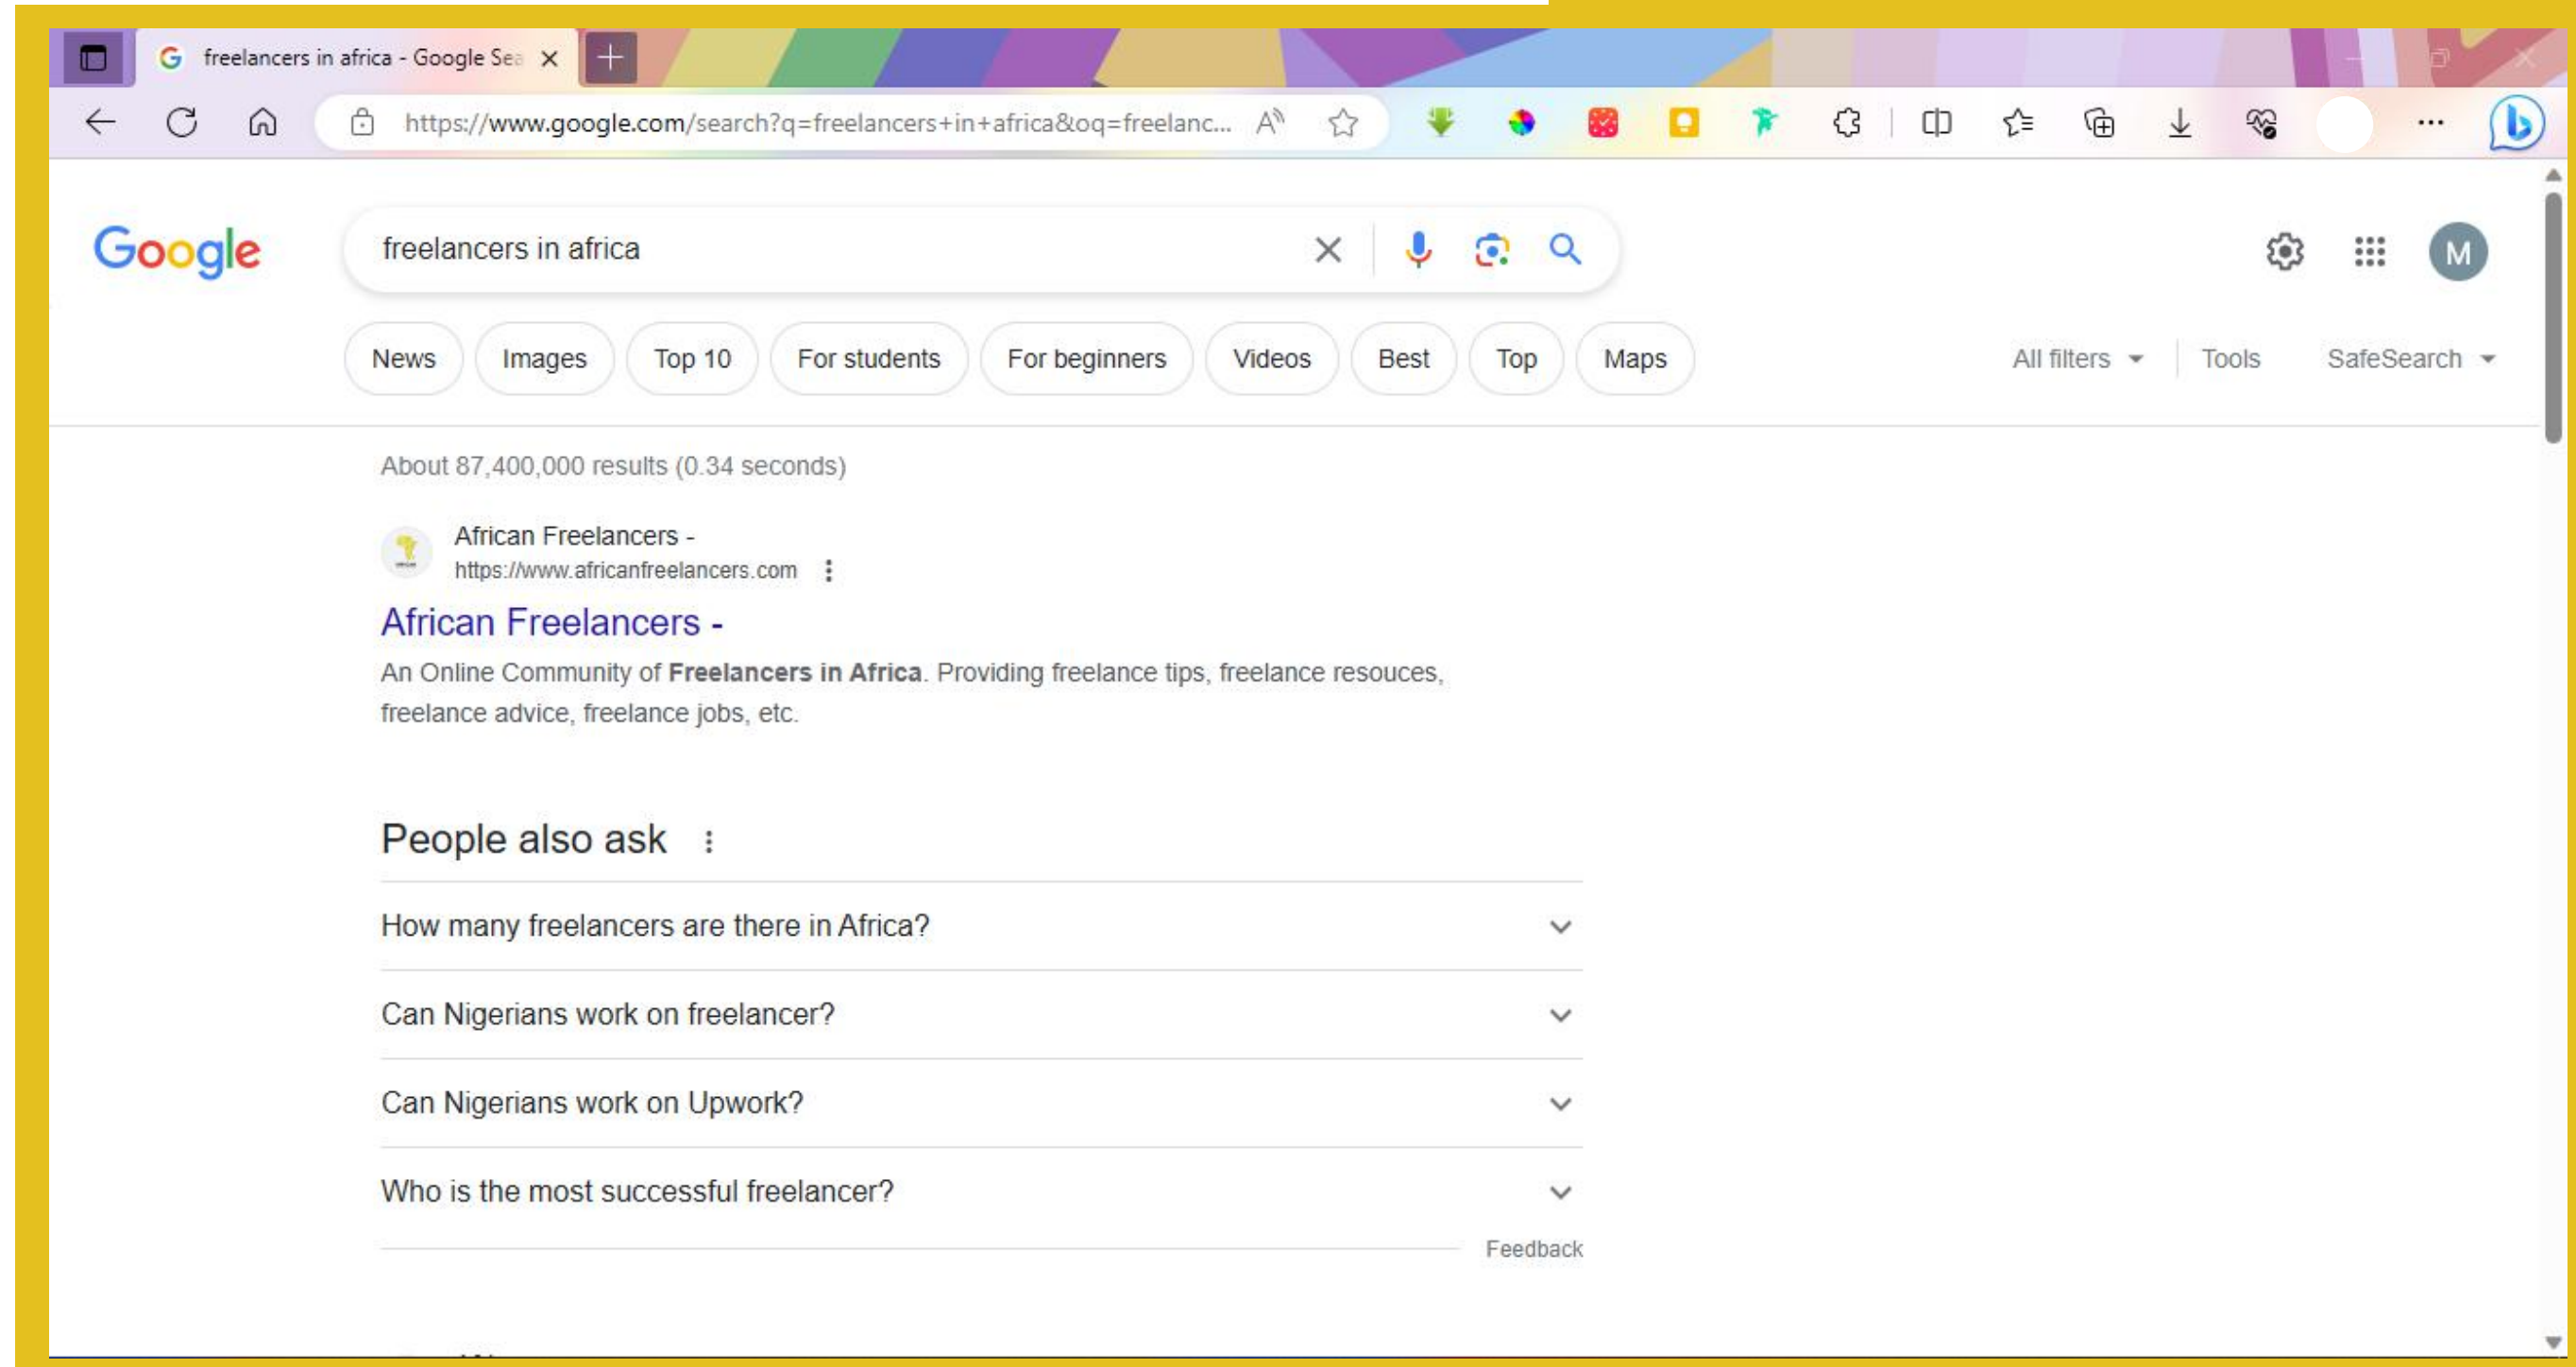

4. Smile for the Future

Lastly, think of your future self – the one who's still rocking a fabulous smile well into their golden years. Regular dental visits are an investment in that future, ensuring that your teeth and gums stay healthy for all the smiles yet to come.

Programs

Our core focus is low-income youth, adults, and seniors within the Waterloo region. We aim to expand our activities to regions and countries so as to increase our support and social assistance to our target audience while ensuring that their potential. Likewise, our programs are developed in a way that caters to different religious beliefs, race, or ethnic background. We also ensure that a safe space for us, "everyone is welcome".

In addition, we believe that support and collaboration are important in reaching beneficiaries at our different outreaches, by giving them the opportunity to give and encourage collaborations with relevant organizations and institutions that share our vision.

Finally, we recognize the need for monitoring and evaluation, especially when working with municipal, and provincial organizations and agencies in achieving optimal results. We work closely with our community partners to achieve our goals and further our mission as an organization.

Just like our tag line that says, "Dream, Plan, Do", we encourage individuals to dream, then create plans to support the dream, while also putting them into action.

To enable and empower individuals of African descent

To improve the quality of life of our target audience

Community Food Drive

Our community food drive initiative tackles the issue of hunger that might exist among low-income family earners in our community. We create an avenue for periodic food drives that provide nutritional foodstuff for individuals and their families. We have also recorded a rate number of successes positively impacting the lives of our audience through our various food drive outreaches. Our food drive outreach initiatives are open to everyone in our community. It is also important to note that the distribution of foodstuff is made possible through the support and donations of our sponsors and partners.

Mentorship

Mentorship is one of the fastest ways of driving change and promoting growth. This is because it is an avenue for the mentee to glean from the experiences and knowledge of the mentor. At BridgeFort Community Outreach, our mentorship platform helps to connect participants with individuals and groups that teach and encourage them to be engaged citizens and improve the quality of their life.

ABOUT

Duchess and Duchess is a ministry founded to serve women and our activities, contribute to raising a generation of strong and confident young girls.

We believe that the ideals and values taught to little girls will in time become the backbone of a strong woman. We believe in the need to invest in young girls today to prepare them for the future.

We believe that a mother's influence is pivotal to ensuring the future of a nation. From teaching her values that will inform her character, to sharing her wisdom, a mother's responsibilities to her daughter are many.

At Duchess and Duchess, we create an environment that supports the growth of young girls. Through events and activities, we also contribute to the mental and emotional needs of young girls. We strive to close the generational gap by encouraging communication between mothers and daughters.

VISION

Our vision at the Duchess and Duchess Ministry is to raise a generation of young girls who are physically and emotionally capable of achieving their dreams.

MISSION

To create an avenue for mothers and daughters to connect and share their experiences.

To encourage mothers to love, understand and respond to their daughters.

To create an expanded feminine influence for young girls by both women and girls inspire.

To create opportunities for young girls to be taught, mentored, and supported.

WHY DUCHESS & DUCHESS?

Studies have shown that most young people value a relationship with their parents and mothers positively impacts on their physical, mental and emotional well-being, communication skills when they have parents who are sensitive to their needs and have better social skills and are more likely to graduate and go on to postsecondary education.

However, it is also important to examine the state of parental attention in the day of 24-hour parenting, a situation where parents have little or no emotional involvement with their children, often in a preoccupation with their own problems, looking away to see how such a situation might develop healthily in today's families.

At Duchess and Duchess, we exist to help our community nurture healthy families through the strength of community and the importance of vibrant and healthy relationships built on love and respect.

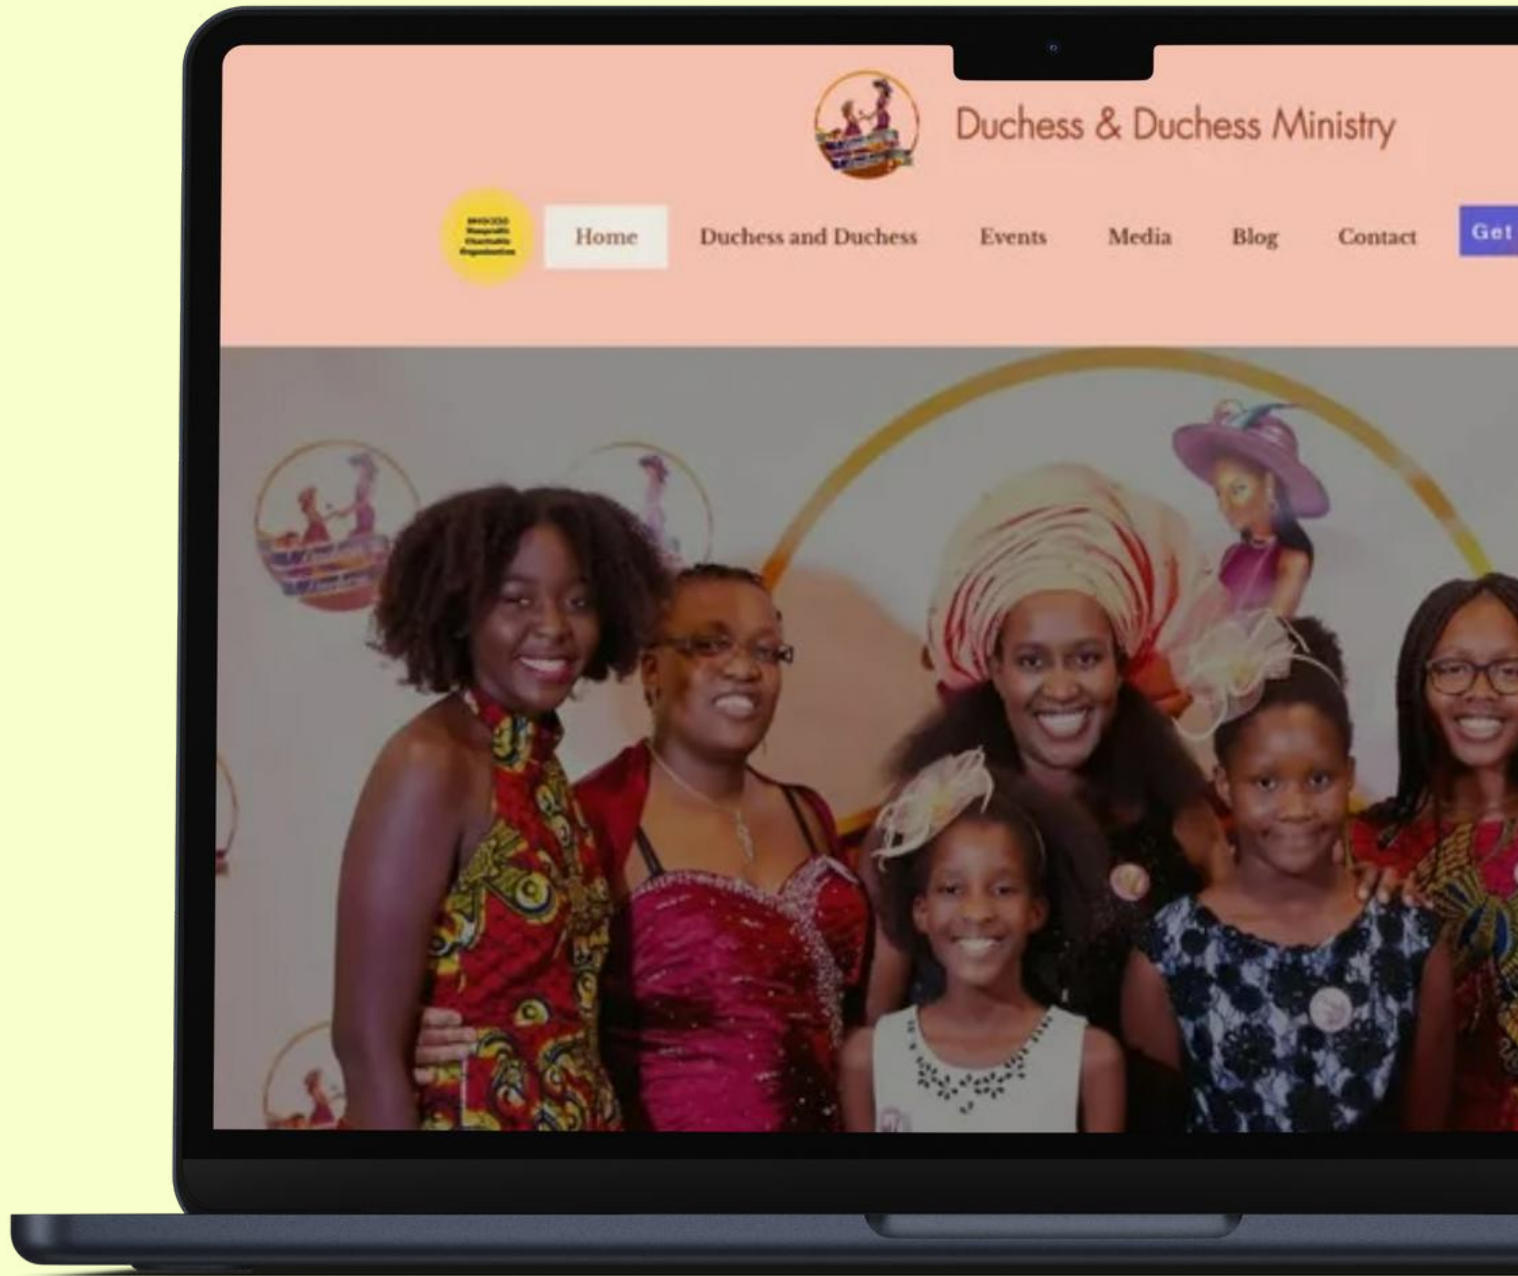

We strive to create an atmosphere of love, respect, and openness so that mothers and daughters can connect and communicate. We seek to create an environment where young girls get mentored and prepared for a full and balanced education. We seek to create an environment where young girls will grow into teenagers who will then head off to college and begin a life of purpose and fulfillment. It is our desire to encourage mothers and daughters to connect and communicate.

About Us

We are Duchess & Duchess Ministry

We seek to raise a generation of women who are mentally, physically, and emotionally strong.

About Us

Education

Our Organization

The Black population makes up the highest percentage of visible minorities in Northwest Toronto at 39%.

This population is composed of immigrant African and West Indians who speak dialects including but not limited to Yoruba, Igbo, Housa, and Patois.

Over 30% of the residents are low income with poor housing, relying on government resources to sustain their families. Immigrant residents have been historically plagued with lack of access to job and school resources.

Our mission is to provide education, counseling, and other support services. We work with Black immigrants and refugees from Africa and the Caribbean in the Jane-Finch, Jane-Wilson, and Oakdale Village communities. Our programs address their needs through language instruction, employment training, job training, job search programs, translation services, and information programs in Canadian culture and life.

We aid families facing financial difficulties through our food distribution and grocery gift card programs. Weekly programs include culturally conducive games and activities to create a safe space and promote mental health. Through education participants get help to create resumes, search for employment, and prepare for job interviews. Program participants are enabled through the program to become more independent and successful members of Canadian society.
